Through CSSA's techLINK programs, Members have access to professional support services such as configuration assistance and Tier-1 technical support. techLINK also offers installation support services such as remote technical assistance and on-site technical consulting by our staff of certified specialists.

CSSA was developed over 30 years ago as a strategic alliance of independent telephone companies. Today, CSSA has grown to serve over 200 Members throughout 40 states.

The mission of the Association is to deliver technology solutions that will enhance each Member's competitiveness. Through service excellence and continuous Member involvement, CSSA has developed beyond traditional product distribution and now offers benefits to Members such as centralized professional support services and technology training programs.

Consider CSSA as your primary resource for **world-class products, professional support services and technology training programs.**
