Solutions

Company Policies

HP recognizes that privacy is a fundamental human right and further recognizes the importance of privacy, security and data protection to our customers and partners worldwide.

HP is committed to the following principles, which are based on internationally recognized frameworks and principles of privacy and data protection:

LAWFULNESS,
FAIRNESS &
TRANSPARENCY

NOTICE & CHOICE OF
DATA USE

DATA ACCESS

DATA INTEGRITY &
PURPOSE LIMITATION

DATA SECURITY

ACCOUNTABILITY

RECOURSE,
OVERSIGHT &
ENFORCEMENT

HP is one of only a handful of companies to successfully obtain multiple privacy recognitions/certifications, including the U.S.-EU Privacy Shield, Binding Corporate Rules (BCRs) in Europe, and APEC Cross Border Privacy Rules (CBPR). In the EU, we are engaged on the Article 29 Working Party (WP29) implementation of the General Data Protection Regulation (GDPR).

[View Corporate Privacy Information](#)

[European Data Protection Board](#)

Privacy Protection

Data protection goes well beyond the devices

- Secure Processing of Data
- Ensuring data is handled safely
- Preventing unauthorized access
- Secure Storage of Data
- Protecting data from breaches
- Maintaining data integrity
- Secure Transfer of Data
- Safeguarding data during transmission
- Compliance with Privacy Regulations
- Adhering to legal standards
- Regular audits and assessments

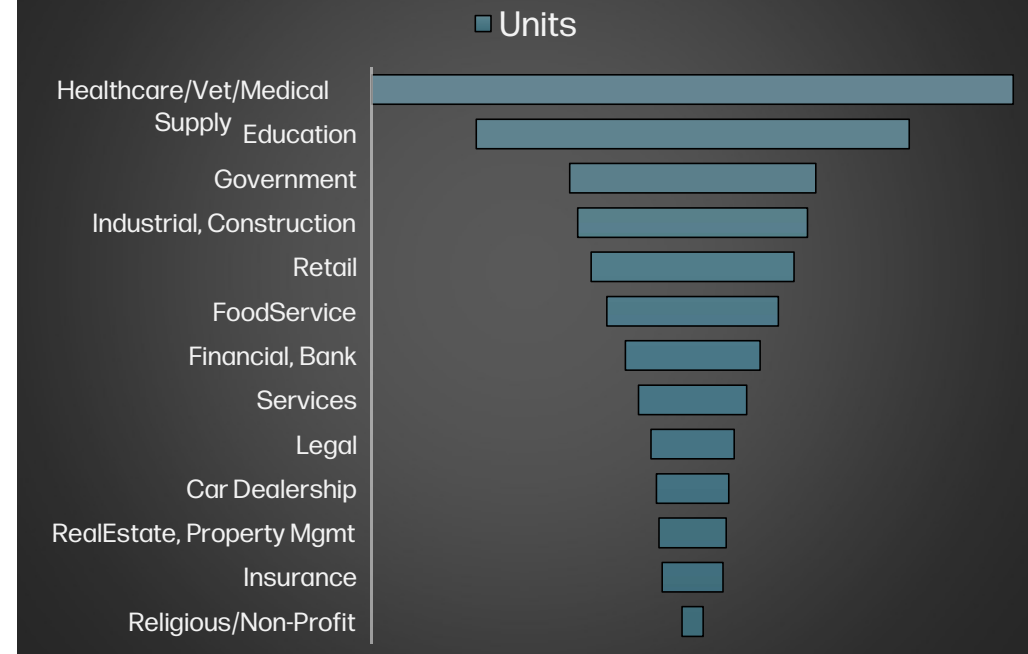

Who buys Phones?

Organizations who have people that:

- Work a shift
- Station, counter, or location
- Do their work at the employer location
- Handle lots of calls
- Security or Privacy or regulation mandates work done in office and on corporate devices (finance, government, healthcare)
- Need communication options in location for consistency and safety
- Often paid by the hour
- May not have a dedicated PC

In any sales opportunity, ask what do they do for communications?

Wi-Fi & Bluetooth®

Native Bluetooth® on Edge E phones adds functionality

PAIR EDGE E WITH MOBILE PHONE

- Use Edge E phones superior mic/speaker and noise blocking technology for calls on your mobile phone
- Use NFC on Android mobile phones to effortlessly pair
- Dial calls from with your Edge E phone with directory imported your mobile phone

BLUETOOTH® 5 SUPPORT ADDS

- Increased Range
- Increased Speed
- Reduced Power consumption

(Integrated Bluetooth on Poly Edge E220/E320/E350/E450/E550)

Edge E Headset Compatibility

USB Connected Headsets

- Blackwire Family
- Encore Pro USB Models
- Other Voyager Office Models

Call Control is supported with certain Poly Headsets via Bluetooth®

- No dongle required for Voyager Focus 2, Voyager 4300, Voyager Free 60 and Voyager Surround 80

“FAST PAIR” via close proximity of headset in pairing mode is supported on Voyager Focus 2, Voyager 4300, Voyager Free 60 and Voyager Surround 80

Headsets Supporting Fast Pair

Voyager 4300

Voyager Focus 2

Voyager Free 60

Voyager Surround 80

Fast Pair

Supported with Poly Voyager Focus 2, Voyager 4300, Voyager Free 60, Voyager Surround 80

Mobile Phone Contact Book Access

Edge E phones with Bluetooth can now access your mobile phone book.

These contacts will be read-only, but Edge E can

- Search the directory
- Dial the numbers
- View some contact details
- Save a contact locally.

Edge E can only connect to one BT device at a time:
Bluetooth headset, or Mobile Phone contacts and calls.

Poly quality audio and noise management

AUDIO

Acoustic Fence

NoiseBlockAI

Poly Noise Canceling Headsets

Edge E Phones

- High quality microphone and speaker components
- HD Voice
- Poly Acoustic Fence and NoiseBlockAI technologies
- Audio codecs include OPUS
- Bass frequency enhancing speaker design on E4xx and E5xx (patent filed)

Poly Headsets

- Additional local noise reduction with over the ear headset types
- Phone noise reduction for connected Bluetooth® and DECT™ headset types rely solely on the headset's noise cancelling technology

A Legacy of Proven Features

COMPUTER AUDIO CONNECT

- Pair your Edge E phone with your PC
- Use your phones handset, headset, or speakerphone for PC Audio for PC client calls
- Reduce interruptions to your conversations with Acoustic Fence and NoiseBlockAI from your Edge E Phone

AND MORE

Flexible Feature Keys, Stir/Shaken, Group Paging, Enhanced Call Park, Speed Dial, Anonymous Call Rejection, Private Hold, Call Screening, Group Directory, Enterprise Directory, Comfort Noise, Shared Call Appearance, Voice Quality Diagnostics, Key System Emulation, Auto Answer, Intercom – and many more

HP Poly Edge V250 Plus Open SIP Desk Phone WW

Smart. Secure. Built for every call.

HP Poly Edge V phones deliver the experiences you need in offices and with front-line workers

Security

- Built with a Trusted Security Module (TSM) for enhanced hardware and data protection—keeping communication secure at every step.

Audio Quality

- Crystal-clear calls with AI noise reduction—so every conversation sounds professional, even in busy spaces.

Usability

- Features such as distress call for safety, color indicators for call activity, multiple line key options, direct connect for supported HP Poly headsets, USB-C On-The-Go (OTG) ports allows direct connection to PC to become speaker/mic for PC

Sustainability

- Containing at least 35% recycled plastics¹ and with recycled packaging², these desk phones enable more impactful meetings with less impact on the planet.

1. Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled is based on the definition set in the EPEAT standard for computers, IEEE 1680.1-2018 standard.

2. Percent of paper-based packaging made from sustainably sourced, certified, and recycled fibers

Delivering a Quality Experience

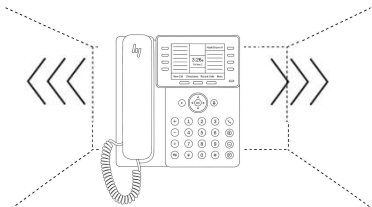

AUDIO

Acoustic Fence

NoiseBlockAI

NoiseBlockAI v3

Poly Noise Canceling Headsets

Edge V Phones

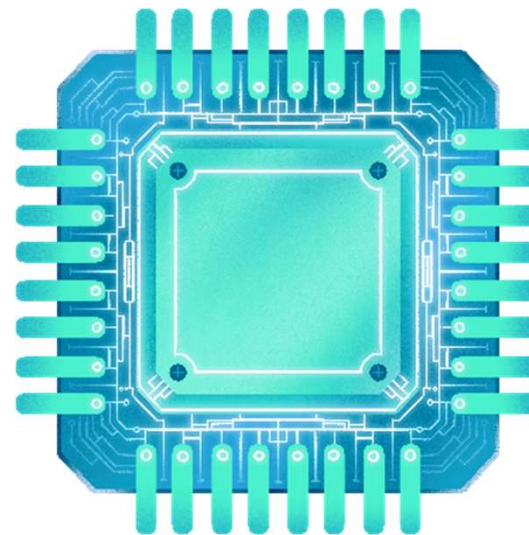

- High quality microphone and speaker components
- HD Voice
- Poly Acoustic Fence and NoiseBlockAI technologies
- NoiseBlockAI v3 reduces reverberation and other space distractions to allow for complete full-duplex communication (Edge V250+ and higher models)
- Bass frequency enhancing speaker design on V600 & 800 models

Poly Headsets

- Quick connect Bluetooth® HP Poly headsets
- Additional local noise reduction with over the ear headset types
- Phone noise reduction for connected Bluetooth® and DECT™ headset types rely solely on the headset's noise cancelling technology

Enhanced hardware and data protection

- Trusted Security Module across all Edge V phones in the portfolio
- Trusted guardian of system integrity
- Enhanced mitigation against new threat vectors
- Secure storage of cryptographic keys
- Enhanced security across most activities in phone lifecycle
- Industry Compliance:
 - FIPS 140-3 including European Commission , AES 256 and RSA 4k
 - JITC certified (pending)

Trusted Security Module Provides :

- | | |
|---|---------------------------------------|
| • Secure Device Provisioning | • Device Identity and Verification |
| • Secure Store of Crypto Keys | • Encryption and Decryption Support |
| • Secure Boot and System Integrity checks | • Protection Against Physical Attacks |

What makes Edge V Secure?

Device authentication

Confirms device is legitimate and trustable

Device certificate management

Secure network access and provisioning

Credentials management

Protection of provisioning and network credentials

Secure data storage

Assurance that device telemetry & logs are secure

Secure communications

Prevent key leakage and eaves-dropping

Strong cryptography

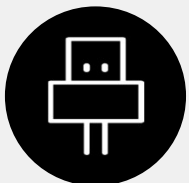

Support crypto ciphers & quantum crypto algorithms

Distress Calling

- Program a line key to place call to emergency services or other pre-defined number discreetly.
- User on the far-end can hear what is happening in the room, but they are not heard from the speakerphone and there is limited indication that a call has been placed
- OPTIONAL - Play a custom text to speech message to the far end such as "A distress call has been initiated, Building 2, Room 185."
- Compatible with all Poly Edge E, Poly Edge V, Open SIP Poly CCX, and Poly Trio phones.

Phone to PC Support

DIRECT USB-C CONNECTION TO PC

- Edge V becomes speaker / microphone for PC
- Offers flexibility for private communications

- Take advantage of all Edge V audio enhancements
- Operates via service provider and USB-C simultaneously

Video Receive

HP Poly Edge V800 Series

- Edge V800 Series ONLY
- Receive SIP video call from call box, security kiosk, etc.
- Check with service providers and other hardware manufacturer to ensure compatibility.

Sustainability

TCO Certified is a global sustainability certification for IT products. As a part of our commitment to Sustainability, we will offer HP Poly desk phones with TCO 10 Certified designation.

Companies with products that carry the TCO Certified designation demonstrate **socially and environmentally responsible practices.**

These product models meet a wide scope of sustainability criteria, covering both environmental and social responsibility in the supply chain and throughout the product life cycle.

All phones shall use packaging Post Consumer Recycled Fiber.¹

Single Use plastic shall be eliminated, or source a significant percent of recycled plastic packaging materials.²

Energy Star compliant in standby mode.

Deployment & Manageability

Poly Edge V phones are built for scalable, flexible deployment. Whether you're setting up a single phone or hundreds, the process is streamlined—especially with cloud tools and provisioning servers.

Cloud-Based Provisioning:

- Poly Lens is the preferred method for large-scale deployments. It allows remote configuration, monitoring, and updates.

Provisioning Server:

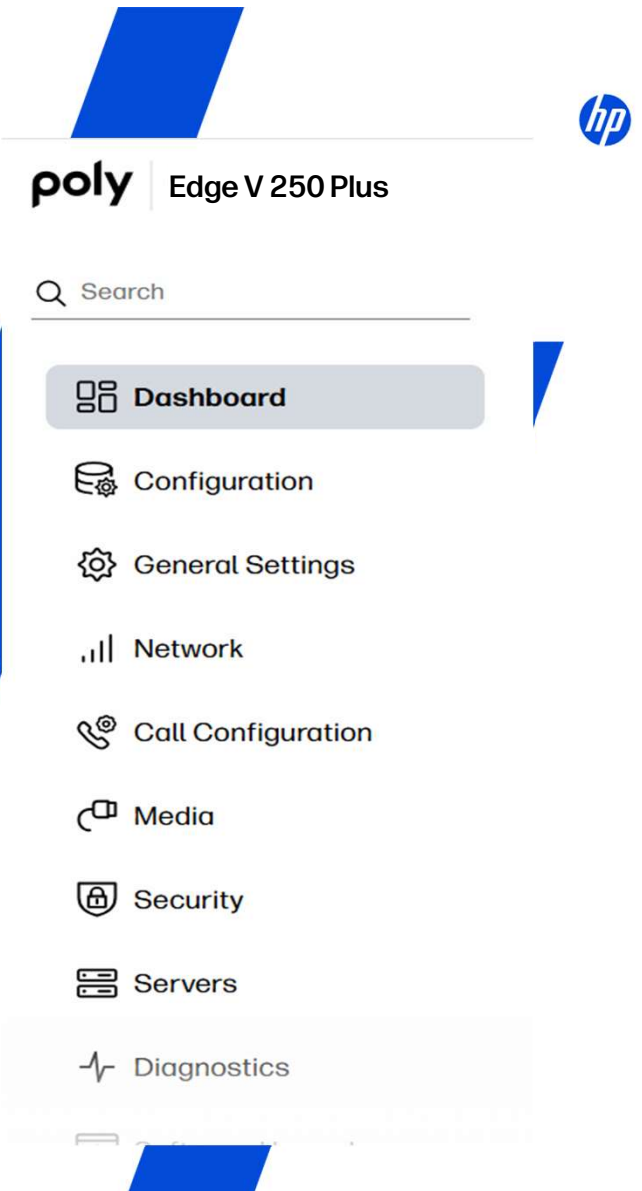

- Ideal for setups with 20+ phones. You can push configuration files to multiple devices simultaneously.

Local Configuration

- You can use the phone's web interface or a USB flash drive to manually configure settings.

Zero Touch Provisioning

- Designed specifically for our ITSP partners
- New consolidated Poly ZT to redirects to your provisioning service, and post deployment use the management tools to remotes reboot, reset, grab packet captures, and logs

HP Poly Focus 6 Series

Comfort and focus, wherever work happens

 Certified for
Microsoft Teams

 works with
Google Meet

Durable Design

Lightweight, low-profile stereo design delivers a more comfortable fit. Extend headset life with replaceable batteries and ear cushions, sold separately.

Designed to move with you

Look sharp and stay comfortable, in meetings or on the move. A slim design with a hideaway boom creates a clean, modern look, while soft cushions and an ergonomic headband support all-day wear. Lightweight and easy to take wherever work happens.

Create a focus zone

Hear and be heard clearly wherever you work. Four noise-cancelling mics with enhanced noise reduction¹ and Hybrid Active Noise Cancellation (ANC) block distractions to keep calls clear, while spatial audio creates an immersive experience for music and media.

Take on the day. Uninterrupted.

Experience a headset that's built to keep up. Up to 25 hours² of talk time, generous wireless range, and intuitive controls give you the freedom to move and the confidence to stay connected from the first call to the last.

TCO Certified, generation 10

The HP Poly Focus 6 Series headsets are certified according to TCO Certified³. These products meet a wide scope of sustainability criteria, covering both environmental and social responsibility in the supply chain and throughout the product life cycle.

What Did We Improve?

HP Poly Focus 6 Series vs. Poly Voyager Focus 2

- **Completely Refreshed Look and Feel:** Designed to look better on camera and out in the world, including hideaway boom mic, and significant enhancements to comfort for longer all-day wear.
- **Net-new "Fold" model:** Made to be more portable and easier to travel with.
- **Improved Transmit Noise Reduction:** Includes Acoustic Fence 2.0 with enhanced noise reduction specifically designed to keep calls silent when not speaking and block out distracting background noise, keeping conversations sounding clear.
- **Longer Talk Time and Wireless Charging:** Better battery life to keep the conversation going. Keep your headset charged and at hand HP Poly Focus Wireless Charge Stands.
- **Durability and Sustainability:** Replaceable battery and headset ear cushions, post-consumer recycled material used in headset, and TCO-10 certified.³
- **Spatial Audio:** Listen like you're in the room, and bring your music and media to life with an immersive 3D audio experience.

Busy Light	No	Yes	Yes
Headband Pad	No	Yes	Yes
USB-C to USB-A Adapter	Yes	Yes	Yes
TCO 10 Certification ⁴	Yes	Yes	Yes

Why the HP Poly Mission Series Wins the Coded Headset Market

Clear Calls: Powered by up to 4 noise canceling mics and AI noise reduction. The HP Poly Mission 600 and 800 Series are also Microsoft Open Office Certified. This designation means the headsets deliver clear calls even in the loudest environments.

Simplicity: We support Microsoft Teams and other UC vendor certifications, plus USB-C and A connection, all from a single SKU.

All Day Comfort: New earcup and headband design in a lightweight form factor makes these headsets ideal for call intensive work all day.

Focus and Increased Productivity: Active noise canceling on the HP Poly Mission 800 Series + 32mm speaker drivers on all headsets means better focus in loud environments, less words missed on calls, and faster customer resolutions.

Good, Better, Best Options: Scale the solution up or down, depending on customer requirements. We offer a cost-effective HP Poly Mission 400 Series, with audio and comfort enhancements at the 600 and 800 Series levels.

Built for a Better Tomorrow : These headsets are thoughtfully designed containing at least 20% post-consumer recycled plastics¹ and shipped in paper-based packaging².

Manageable by IT: Our broad collaboration portfolio can be managed through a single portal; HP Poly Studio.

Disclaimers

1. For Recycled Fiber: This material is renewable. As defined in the Global Reporting Initiative (GRI) Sustainability Reporting Standards, renewable material is “material derived from plentiful resources that are quickly replenished by ecological cycles or agricultural processes, so that the services provided by these and other linked resources are not endangered and remain available for the next generation .
2. Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled is based on the definition set in the EPEAT standard for computers, IEEE 1680.1-2018 standard.
